EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edward Meagher on February 16, 2007.

The application has been amended as follows:

"Claim 12-16 (Canceled)" has been corrected to - - Claim 12-15 (Canceled) - - ;

claim 9 has been cancelled to prevent duplication of claim 16;

in claims 6, 16 and 17, in the last paragraph, in line 4, after "position" - - which together with the at least one stop member are configured to regulate and - - has been inserted.

Reasons for Allowance

Applicant's arguments filed 01/29/2007 on pages 7-12 are persuasive, especially the following:

Further, even assuming arguendo that Lottick and Cordis could be combined in a working fashion, this combination would still not teach Applicants' invention since no where is it taught, suggested or remotely contemplated to dispose the stop member adjacent the sealing surface "to regulate a working pressure between seal surfaces" to within a range of about 7 kg/cm² to about 13 kg/cm² to effectively seal tissue.

Art Unit: 3739

In a telephone interview Edward Meagher on February 6, 2007, it was agreed to amend independent claims 6, 16 and 17 to include this limitation as detailed above.
